## *our story*

The story of our unique family business starts with our beautiful, talented Mom, Veronica. Perfecting her unique recipe for natural clean burning gel, Veronica began creating custom scenic scented gel candles in 1998. Her entrepreneurial spirit led her to start her small business in a tiny barn in her backyard on Long Island, NY. Before long, Veronica became well-known for her beautiful hand-crafted candles as she sold them to many local stores and craft shows.

In 2001, Veronica hit her first major milestone – she opened her first brick-and-mortar store, Veronica’s Candle Cove, located on the Nautical Mile in Freeport, NY. The nautical themed store was a perfect fit for the idyllic beachside town, so naturally, it didn’t take long for the store to become a must-see destination for tourists and locals alike. Constantly packed, Veronica’s Candle Cove was an instant success. Customers would consistently share their amazement for the dedication to the design of each handmade candle; the love Veronica poured into each candle was clearly evident as they gazed upon the shelves filled with color, scent, and beauty.

In 2007, Veronica’s Candle Cove became a true family business; the company was able to expand west to Chicago, thanks to the expertise of her business savvy daughter Christine. After a few years of selling candles at local craft shows there, Christine felt called to relocate down south. Christine was determined to carry on her mother’s legacy in Vero Beach, Florida, where she opened yet another location of Veronica’s Candle Cove. With her mother’s help, Christine has truly tapped into the beautiful, artistic, and innate talents passed down to her. Christine, with Veronica’s guidance, is producing more beautifully hand-crafted, scenic, scented gel candles than ever before.

God has us on this journey now for over 20 years, and we continue to pour love into each and every one of our natural gel candles. Creating scenic gel candles continues to be Christine’s passion, as she is still carrying on her mother’s legacy today. Enjoy the beauty and ambience your candle will emanate when lit; every candle is made with pure love from our hearts.

## burning 101

# 01

### DON'T BURN FOR MORE THAN 4 HOURS

It is important to carefully read the instructions and warning label located at the bottom of the candle before use. For the best experience, we recommend burning your favorite gel candle for no more than 4 hours at a time. Our candles will illuminate like an aquarium as the gel slowly burns in and around the scenery.

# 02

### ALWAYS KEEP YOUR WICK TRIMMED

To prevent any smoke or natural soot buildup, always keep your wick centered & trimmed to ¼. Our wicks are 100% lead free, making them the healthiest choice for the family and you! Avoid dropping debris, like matches or wick trimmings into the gel.

# 03

### NEVER LEAVE YOUR CANDLE UNATTENDED

To ensure the safest use and prevent any potential hazards, avoid placing your gel candle on sensitive or uneven surfaces while burning—and of course, never leave your candle unattended when lit.

# 04

### LEAVE A LITTLE GEL AT THE BOTTOM

For optimal performance and safety, it's recommended to leave ¼ of the gel at the bottom of the candle. This will allow the candle to burn smoothly and provide an immersive experience as the flame illuminates the surrounding scenery.

### Approximate Burn Times:

Small Votive - 25 hours  
Medium Bowl - 60 hours  
Large Bowl - 80 hours  
Large Ivy - 90 hours

# the finer details
